

AQUACULTURE

Oceans Economy Review Workshop Moving the Oceans Economy Forward

Aquaculture Group Recommendations

Areas

Funding

- Prioritise Aquaculture Development Fund
- Provide feasibility studies by species (failures & successes)
- Create awareness in private sector financial institutions and government funding agencies
- Ensure upskilling occurs to improve the use of funds

Transformation

- Involve the youth in the sector
- Understand existing global community based models and pilot models appropriate for each area
- Involve communities in development of the sector

Skills

- Introduce the subject of Aquaculture in the school curriculum as early as possible in rural areas
- Launch quick wins in skill development (i.e. international training)

Aquaculture Group Recommendations

Areas

Some discussion topics

Communication & awareness

- Develop relevant communication strategy for each group of stakeholders
- Create awareness for funders, communities and consumers
- Information sharing with small scale farmers
- Ensure transparency on decision making processes

Capacity

- Capacity within DAFF
- Limited support capacity within government

Other issues

- Marine protected areas (MPAs)
- Inter-lab syndications
